***Tropical Pasture Science:
Whiteman, Peter C ...***

Whiteman here looks at the effects of climate and various soil properties on different pasture species. He describes their introduction, evaluation, morphology, agronomic characteristics, and adaptations to stress. He also explores the role of pastures in tropical cropping systems and plantation agriculture, and defines the factors controlling nutritive value, intake, and digestibility of pasture species.

***1. Introduction. Tropical
legumes are potential feed
resources for ruminants in
Central Tanzania because
they are easy to establish and
have higher CP content
compared to grasses
(Whiteman, 1980). However,
some tropical legumes
contain anti-nutritional
factors which could limit their
use as animal feeds.***
